- An Appeal Board will be formed and a decision shall be returned to the students within 14 working days of filing (unless otherwise stipulated).

Undergraduate and Postgraduate Studies

Students in the undergraduate and postgraduate degree programmes may not appeal against the exam results. Every module is marked in relation to the learning outcomes, and a pass mark means that students have achieved them. Marks are moderated between teaching staff, and endorsed by external examiners. These systems help to ensure that the marks are fair. The mark is based on student's achievement, and student's personal circumstances do not change that achievement.

However, students may appeal to view their failed transcripts or against the award of the Exam Board.

Appeal to View Failed Transcripts

The Appeal Form must be submitted to the Student Services Front Desk within 7 working days of the official release of results on the student portal. An administrative charge of \$250

(subject to prevailing GST) per module appealed shall be payable by students, regardless of the outcome of the appeal. During the consideration of the appeal, students may continue in the course as per normal. If the appeal is rejected, the decision of the Examination Board shall stand. Full details of the appeal where requested must be furnished for the consideration of this appeal. If any piece of information submitted or declared above is found to be false or misleading, the appeal will be rejected and action may be taken against the students for academic misconduct. The administrative fee is non-refundable.

Appealing Against the Award of the Exam Board

Students can appeal against the decision of the Award and Progression Examination Board on the final award at the end of the course.

GROUND FORS FOR APPEAL

There are only two grounds for appeal:

- a material administrative error (for example, that the assessment was not conducted in accordance with programme regulations, or that some other procedural defect has occurred)
- extenuating circumstances which students were unable for valid reasons to divulge at the proper time (normally no later than 5 days after the date of an examination or submission date for coursework).

If students appeal on the grounds of material or procedural error, a written evidence of the error must be provided.

An appeal on grounds of extenuating circumstances will only be considered if students are able to provide good reasons why students did not submit an extenuating circumstances claim form by the appropriate date. Without good reasons, students cannot appeal on grounds of circumstances which students knew about before the Examination Board. An appeal is likely to be rejected if students say that their circumstances were too sensitive to reveal before the meeting of the Board, but students are able to explain them now that students have their results. Students also need to provide authentic documented evidence of their extenuating circumstances as well as explaining why they did not submit them before. In the event that the documentary evidence of extenuating circumstances relates to an individual or individuals other than themselves (for example, a relative), students will need to provide authentic documentary evidence to verify their connection or relationship to the named individual(s).

Students cannot appeal on the grounds that they did not understand or were not aware of programme or University regulations, or of the procedures for submitting extenuating circumstances or asking for an extension of the coursework deadline.

Before making an appeal, students should seek the advice of their Academic Counsellor or Student Services.

To make an appeal, students must complete the relevant form at the front desk and attach a copy of the original Examination Board results letter or decision against which students are appealing. An Appeal Board will be formed and a decision shall be returned to the student within 14 working days of filing (unless otherwise stipulated).

ASSIGNMENT / PROJECT SUBMISSION STANDARDS

SUBMITTING ASSIGNMENTS

All text based summative assessments i.e. written coursework that is being marked as part of your overall mark for an individual unit should normally be submitted online. Written coursework must be uploaded online to the proper software facility for submission and students cannot choose to hand in a hard copy to the lecturer instead.

All assignments must be handed-in by specified due date and it must be submitted by the due date and time as specified on student online portal, unless another due date advised or granted in advanced by the school. Students are advised to submit in advance of the final deadline whenever possible and are expected to submit work on time. Penalties apply for late submission.

Auston Certificate, Specialist Diplomas and Diplomas	Master (UOW)	Top-Up Degree (DMU)	Top-Up Degree & Master (UWE)
Online submission will involve the use of Google Classroom. Students are required to access Google Classroom with the Auston email ID provided.	Online submission will involve the use of both Google Classroom and CANVAS. An Assessment can only be submitted for marking once.	Online submission will involve the use of both Google Classroom and BLACKBOARD. An Assessment can only be submitted for marking once.	Online submission will involve the use of Google Classroom only. An Assessment can only be submitted for marking once.

Submission without any of the above steps will be considered incomplete and subject to late and non-submission penalties. Students cannot hand in a piece of work electronically or as a hard copy to the lecturer and then decide to submit a different version by the deadline date. A second submission will not be marked.

LATE ASSIGNMENTS AND SUBMISSIONS

All assignments are to be submitted by the due date, assignments/ projects submitted after the due date will be penalised with marks deduction unless an extension has earlier been granted in writing.

For courses awarded by Auston, late submission may result in a 5% reduction in marks per day, and assignment more than 3 days late will not be accepted (including Saturday and Sunday), student will receive a fail for the assignment.

For courses awarded by our University partners, Late submission is subject to the regulations specified by the University.

DMU Degree Programmes Late submission

If you submit an assessment late at the first attempt then you will be subjected to one of the following penalties:

- DMU penalty is within 14 days marks capped to 40 for late submission after the original due date;
- If the submission is made after the 14 days late submission period, your work will be considered as Zero.

ASSIGNMENT SUBMISSION STANDARDS

These are guidelines for the preparation of written coursework/ project submission:-

- Online submission:
 - ✓ File format: MS Word (.doc and .docx) or Portable Document Format (.pdf)
 - ✓ File size MUST not exceed 10MB.
 - ✓ In document header, it must remark with student name, student number and unit number.
 - ✓ In document footer, it must indicate page numbering in format 'Page X of X pages'.

Where students are submitting a joint Assessment as part of a piece of group work, the student number for each member of the group must be stated on the Assessment cover sheet. One member of the group should then submit the Assessment on behalf of the group using their personal name and student number in the header/footer of the Assessment putting 'group rep' after their name. The Assessment will then be marked as a piece of group work.

Students are advised that where a piece of group work has been submitted by a single member, the Turnitin originality report and the marked work can only be accessed and returned electronically to that individual student. It is therefore important that the nominated member of the group is available within the feedback timescale.

EXAMINATION MATTERS

RESIT OF EXAMS AND RESUBMISSION OF ASSIGNMENTS

Where students fail with an “F” grade in an examination or module assignment, there is a provision to re-sit the examination or re-submit the module assignment, unless different examination regulations as specified by the University (refer to annexes), and subject to the passing requirements for each level and/or course.

Number of Attempts	Failed Single Component (CW or EX)	Failed Both Components (CW and EX)
First Attempt	Component Only reattempt (re-sit or resubmit)	Reattempt All Components (re-sit and resubmit) (subject to min grade), else, Reattempt by Attendance (remodule)
Second Attempt	Reattempt by attendance (remodule)	Reattempt by attendance (remodule)
Third Attempt	Component Only reattempt (re-sit or resubmit)	Reattempt All Components (re-sit and resubmit) (subject to min grade), else, Reattempt by Attendance (remodule)
Fourth Attempt	Compensation Pass (subject to min grade) Or expulsion (subject to Exam Board's decision)	

An “F” result status will be confirmed if students do not turn up for the re-sit examination or re-submit the assignment.

Reassessment opportunities are available to all students to enable them to redeem their failed grade.

Reassessment will be done on the next available opportunity, to be determined by the Examination Board.

For programmes awarded by Auston, assessment of a module or component shall normally be restricted to a maximum of four attempts, so for a failed module (1st attempt), follow by a re-sit/re-submit (2nd attempt) and repeat the module (3rd attempt) with reassessment (4th attempt). Please refer to annexes for different University's requirements.

There is no restriction, unless specified in the University assessment regulations, on the number of modules which can be re-sit. If a student depleted all 4 attempts in a single module, the student will be prohibited to continue with the module. The Exam Board will decide

separately on the progression for the student with evidence, or the award at the end of the programme. No re-sit can be taken unless authorised in advance by the Examination Board.

Passing Marks for programmes of different levels

Programmes	Component	Final Mark	Exception
APEC	50%	50%	-
Certificate	-	40%	-

HONOURS CLASSIFICATION

For Bachelor Degree awards by the University, assessment Criteria shall be as follows:

Student will only be considered for an award of an honours degree when they have successfully completed all stipulated modules on their programme.

Honours degree classification is based upon a student's best 105¹¹ credits from the 120 credits of modules studied at level 5 and the best 105¹² credits from the 120 credits of modules studied at level 6. It is calculated by taking an average of these 210 credits with the level 6 credits triple-weighted. Only level 6 modules are triple weighted. This is to ensure

that the degree classification is an accurate reflection of a student's performance at the culmination of his/her programme of study.

Taking into account the triple weighting of level 6 modules, the total percentages required to achieve each Honours Degree classification are as follows:

Marks (%)	Honours Classification
70% and above	1 st Class
60% to 69%	2 nd Class Upper
50% to 59%	2 nd Class Lower
40% to 49%	3 rd Class
Below 40%	Unclassified

The board will award an honours degree in the higher classification band to a student who achieves across the last 120 credits of level 6 modules an overall percentage in the higher classification band or achieves in at least 60 of the last 120 level 6 credits, marks in the higher classification band¹³.

Student shall automatically be entitled to the class of a Degree with Honours determined by the classification percentage achieved. This rule does not apply to those with academic delinquencies.

Student who enter for final assessment for a Bachelor's Degree with Honours, but are unsuccessful in obtaining an Honours award and is considered for an Unclassified Degree shall be eligible to seek to upgrade their unclassified award to a Degree with Honours by re-sitting failed modules. When the pass requirements for the honours award have been satisfied, the classification calculation must use the marks achieved at the first attempt for any reassessed level 6 modules. This rule does not apply to those guilty of cheating at examinations or plagiarism.

In deriving a mark for classification purposes, marks shall carry a weight according to the credit rating of the module.

Any entitlement to a classification, merit or distinction may be set aside at the discretion of the Examination Board in the light of findings following a case of cheating; the Examination Board may also award an unclassified Degree to a candidate for Honours in such circumstances, and may fail a student who has otherwise passed the course concerned. Student penalised for

cheating shall not have the right to be assessed or reassessed to improve their award or classification, nor to take an upgrade to Honours; exceptions are at the sole discretion of the Examination Board.

¹¹ Best credits are defined as a student's achievement in terms of their module marks, ranked from highest to lowest.

¹²The use of best credits to determine the average for classification means that students will benefit equally irrespective of the size of the modules studied. This means that in some cases only fractions of module(s) will be counted towards the average for classification.

¹³For programmes with more than 120 level 6 credits the student must achieve at least 50% of the level 6 module marks in the higher classification band.
